

# JOO LZ DAY

EARTH EDITION

# EARTH EDITION BORN TO BE NATURAL

Joolz introduces for her Joolz Day pushchair a new edition respecting the natural beauty of the earth. The stylish Joolz Day Earth edition translates the pureness of nature through the two tones of Elephant grey and Cactus green.

We're Joolz from Amsterdam and we hold some strong opinions. For example, that a pushchair should adjust to you - and not the other way around. That it should not only look good, but be handy, smart, compact and strong as well.

Visit our website

Designed around the body - mummy's, daddy's and the little passenger's. And that when you buy a Joolz, you buy the only pushchair you'll ever need. Put all this together and you get what we call Dutch Ergonomicz. What you are looking for is a pushchair that adjusts to you. And not the other way around.

**Joolz. Don't adjust yourself.**
